

CHARLENE AUDREY

Charlene Audrey was raised in the Eastern Township of Quebec, Canada and continues to live there. While still very young she became passionate about art. This passion led to her career as an artist.

The beauty of the countryside that surrounds her has had a great influence on her work. She is greatly inspired by motifs, decorative art and her love of life and nature. She composes with the graceful transparency of watercolors and the energy of acrylics. She is constantly trying new techniques while continuing to embrace the traditional.

No matter what she does, Charlene Audrey transposes her enthusiasm into a vibrant and colorful poetry for the eyes.
